OVERVIEW

Har ki Dun (12,000 Ft. Altitude 44 Km Distance) one of the most beautiful and preferred treks of Uttarakhand always welcomes its lovers with glorious natural views. The best Har ki dun package is provided by us so that all travelers can experience it easily. It would not be wrong if we say that it always takes away the heart of its travelers every time they visit it.

The most amazing fact about this trek is that it is easily accessible in summer as well as in the winter season. Located in the Uttarkashi district of Uttarakhand, Har ki Dun is a combination of fascinating views of various peaks around it like Swargarohini, Black Peak, and many more. You can always see the Himalayas covered with snow from here. From the geographical angle, the Har ki Dun catchment is the major source of the Yamuna River System.

Traditionally, it is said that it is the staircase to heaven. Well, travelers coming here get to know so much about the traditional stories and get connected to spirituality. The place provides an immense sense of pleasure which connects the person to nature. There are various ancient villages which can somehow tell about the well-being of the people living thousands of years ago. Travelers camp near the flowing river which is the best part of the trek. Thick forests full of pine trees, walnut trees, and various other flora and fauna bring nature one step closer to the travelers.

While passing by the trek you will come across various forests covered with oak and deodar trees. There you may also see some species of flora and fauna which makes your trek more exciting. There are also several rhododendron trees that bear red-colored beautiful flowers. Walking through the trek you will get refreshing air and will have a great feeling.
